

5-YEAR COMBINED BACHELOR AND MASTER'S DEGREE

Receive a Bachelor's Degree in Geography and a Master of Science Degree in Geoinformatics in just five years

WHY GET A COMBINED DEGREE

Save time by completing a BA/BS and MS in 5 years versus the typical 6

Cut costs by saving one year of graduate school tuition

Gain a competitive edge in the workforce with an advanced degree

WHY GEOINFORMATICS?

Gain expertise in GIS software, advanced spatial analysis techniques, and cutting-edge geospatial technologies

The GIS industry is expected to grow by 29% in next decade (*much* faster than the average)

Work in various fields, including economics, environmental planning, public health, and government

WHO IS ELIGIBLE?

3rd year Geography majors with an interest in GIS, informatics, and statistics

Students with a 3.25 GPA and at least 80 s.h. of undergraduate work completed

Students must submit official GRE scores (TOEFL scores needed for int'l students)

HOW DO I APPLY?

Schedule a planning appointment with your undergraduate advisor

Prepare resume, letters of recommendation (3), and a statement of purpose

Submit online Graduate College application during the second semester of Junior year
